

What do you want for your child?

El Marino Language School
offers a unique opportunity of
learning for our community.

Our programs place either
English-speaking and
Spanish-speaking students or
English-speaking and
Japanese-speaking students
together in a classroom where
both languages are valued and
used for instruction.

For parents who would like to hear more about
the EMLS instructional program and how your child is learning
in a second language, please join us:
